

Ningbo Ring Electronics Co.,Ltd is located in the sub-base of National New Energy and Environmentally Friendly Industrial Area---Ningbo Wangchun Industrial Zone. Established in March 2008, it is a high-tech enterprise specializing in researching, developing, manufacturing and selling photovoltaic products.

After years of development, RING SOLAR now already has standard workshops of more than 30,000 m², as well as comprehensive product test methods and quality assurance system. With annual capacity of more than 400MW, Ring Solar has exported its products to Europe, America, Oceania, Africa, Southeast Asia etc.

Since its establishment, Ring Solar has highly focused on corporate image and talent cultivation, vigorously introduced advanced producing technology and equipment both domestic and abroad, gradually built up a core product system including PV modules, PV systems and system applications.

Ring Solar people always carry the vision of "convenience, energy saving, green power, a better world", fulfill the mission of "to connect the non-electrical regions with electricity, to benefit thousands of homes with solar power, and let portable solar power become the most brilliant identity". We always fight for the core value of our company and to achieve "mutual creation, mutual development, mutual sharing, mutual benefit; self-sustaining, self-improvement, self-reliance, self-contained".

PORTABLE SOLAR SYSTEM

This product is suitable for areas with no electricity or lack of electricity

RL-1265

RL-1240

RL-1220

Model	RL-1220	RL-1240	RL-1265
Main Configuration	18V/30W poly solar panel, system case (with 12V/20AH lead acid battery)	18V/60W poly solar panel, system case (with 12V/40AH lead acid battery)	18V/80W poly solar panel, system case (with 12V/65AH lead acid battery)
Accessories	3W LED bulbs 2 PCS LED light wires 2 PCS USB cable 1 PC Power Adapter 1 PC	5W LED bulbs 2 PCS LED light wires 2 PCS USB cable 1 PC Power Adapter 1 PC	5W LED bulbs 2 PCS LED light wires 2 PCS USB cable 1 PC Power Adapter 1 PC
Output	DC 12V Output USB 5V Output	DC 12V Output USB 5V Output	DC 12V Output USB 5V Output AC 220V Output 300W Output

- Power of the solar panel, capacity of the battery and quantity of accessories could be adjusted by the actual needs of the users.

Application

Outdoor Camping

Farms

Family Power Supply

Standard Configuration
